

LEADING SOLUTIONS FOR
fishing.

what makes us unique and valuable to you?

We are problem solvers

Nationwide, our people have the collective knowledge and experience that spans years of service; you benefit from that every day. No matter the industry you are in; Construction, Forestry, Marine or Agriculture if you have a problem, Cookes can solve it. That means better performance and profitability for your business.

International quality from local branches

You can shop at your local Cookes branch for a huge range of world-class industrial products. Our people enjoy making relationships personal. We aim to understand your industry, your business, and your unique needs. What you need is not on the shelf? Or in the warehouse? We can supply products from any of our 11 national branches. Have a problem? We can design and tailor a solution to meet your needs and requirements.

Health and safety come first

Our business revolves around the use and support of industrial machinery where any unsafe practice can lead to serious harm. Safety always comes first. Whether we're manufacturing, testing, certifying or supplying; health and safety is paramount for our employees, contractors, and customers.

We are experts in ensuring that the equipment you use is fit for purpose. Cookes in-house testing, height safety services, mobile testing services, non-destructive testing and specialist rigging services ensure your equipment meets and or exceeds all relevant AS/NZS standards.

Quality Assured

Cookes is absolutely committed to supplying quality products and service. We have held ISO 9001 certification since 1992 and have expanded this to include the ISO 14001 and OHSAS 18001 certification, demonstrating our commitment to quality, sustainability and safety. We have achieved Full Member accreditation with LEEA, the internationally recognised standard in lifting, providing further assurance of our ability to deliver quality solutions that consistently meet or exceed your needs. More recently we have become IANZ accredited for the inspection and testing of wire ropes.

COOKES: OUR ORGANISATION, OUR HISTORY

Cookes is the name at the very heart of how this country was built: our products have been doing New Zealand's heavy lifting, hauling, hoisting, trawling, digging (and more) for over a century.

Leaders in the supply of commercial fishing products and services.

As the New Zealand brand of Bridon-Bekaert The Ropes Group, Cookes is a leader in the development, manufacturing, sales and testing and inspection of steel wire, synthetic fibre ropes & lubricants. Couple this with our decades of experience working alongside the commercial fishing sector supplying high performance nets, floats and services and you have New Zealand's leader in performance driven solutions for fishing.

market leading solutions for fishing

BRIDON · BEKAERT THE ROPES GROUP

Bridon-Bekaert Ropes Group is the world's premier supplier of mission-critical advanced cords, steel wire ropes, and synthetic fibre ropes.

As a leading innovator, developer and producer of the best performing ropes and advanced cords globally, the Group provides superior value solutions to the oil & gas, mining, crane, elevator and other industrial sectors.

Two of the most enduring wire and rope pioneers joined forces in 2016 to make this ambition real. Bridon-Bekaert Ropes Group has a global manufacturing footprint and employs approximately 2500 people worldwide.

COOKES360

Cookes 360 services:

Technical Advice & Specification

- ✓ Expert knowledge
- ✓ Bespoke solutions
- ✓ Compliance & assurance

Sourcing & Transportation

- ✓ Sourcing quality products
- ✓ Global supplier network
- ✓ Indent supply & expediting

Assembly & Installation

- ✓ Lifting & rigging
- ✓ Height safety
- ✓ Net fabrication

In-service Inspection, Testing & Certification

- ✓ Non-destructive evaluation (NDE)
- ✓ Inspection & testing
- ✓ Certification

Maintenance & Repair

- ✓ Wire & fibre rope
- ✓ Lifting & height safety equipment
- ✓ Netting

Storage

- ✓ Lofting of lifting equipment
- ✓ Storage of customer product
- ✓ Insurance wire rope stock

Asset Management & Compliance

- ✓ BriCert
- ✓ Asset compliance
- ✓ Guidance on discard

Advanced Services

- ✓ Customer training
- ✓ Sales & hire of load measurement solutions
- ✓ VR crane operator training

BBtec

The Bridon-Bekaert Technology Centre (BBtec) is our centre of excellence for rope technology development, testing, analysis and verification.

BBtec is equipped with unique equipment capable of testing steel/synthetic ropes and wires. It has extensive forensic analysis laboratory facilities and specialists capable of conducting detailed forensic evaluations of new or retired ropes.

BBtec accelerates Bridon-Bekaert's new product development, involving the latest rope technologies to increase safety, performance and operational life of ropes working in demanding and hostile environments typical to our core markets in the Oil and Gas, Mining, and Construction sectors.

rope technologies.

Polymer Technologies

PLASTIC IMPREGNATION

High performance plastic impregnation is designed to offer an internal cushioning layer to the inter-strand contact points especially between core to cover on multi-strand low rotation ropes improving bend fatigue and core service life.

NXG

Advanced next generation low friction polymer technology incorporating unique additives to further enhance fatigue life of plasticated ropes

OUR PREMIERE PRODUCT OFFERING WITH POLYMER TECHNOLOGY

starfish[®]

STARFISH ropes construction reduces sheave wear and point to point loading, which combined with the superior dynamic structural stability provided by the Bristar core, ensures exceptional performance.

- ✓ **HIGH PERFORMANCE CONSTRUCTION**
Improved strand positioning significantly increases fatigue life and wear resistance
- ✓ **GREATER INTERNAL ROPE PROTECTION**
Enhanced core life
- ✓ **INCREASED ROPE STABILITY**
Enhanced diameter stability under load improves drum spooling performance and reduces crushing

Rope Compaction

DYFORM[®]

Bridon-Bekaert manufactures ropes using a unique dyforming process that compacts the strands as shown below. The smooth surface of the "Dyform" product provides improved rope to sheave contact leading to reduced wear on both rope and sheave. Increased cross-sectional steel area and improved inter - wire contact ensures that the rope will operate with lower internal stress levels resulting in longer bending fatigue life and lower costs.

If abrasion is determined to be a major factor in rope deterioration, then a wire rope with relatively large outer wires should be considered.

Non Dyform wire rope on adjacent drum laps can cause point contact and accelerated wear. Selection of a Dyform product will reduce abrasion through improved contact of the smooth surfaces, creating better contact and longer rope life.

Dyform ropes also reduce rope to sheave abrasion through increased contact of the periphery of the rope with the sheave as shown below.

RESISTANCE TO ABRASIVE WEAR

Abrasive wear can take place between rope and sheave and between rope and drum but the greatest cause of abrasion is often through "interference" at the drum.

CRUSH RESISTANCE

In multi-layer coiling applications where there is more than one layer of rope on the drum it is essential to install the rope with some back tension. Bridon-Bekaert recommends a minimum installation tension of between 2.5% and 10% of the minimum breaking force of the rope.

If this is not achieved, or in certain applications where high pressure on underlying rope layers is inevitable e.g. a boom hoist rope raising a boom from the horizontal position, severe crushing damage can be caused to underlying layers.

Trawl Warps

Dyswage

Designed specifically to meet NZ's demanding deepwater trawling needs. Dyswage is a double compacted (strand/rope) trawl warp offering the best diameter retention while in service, combined with the highest strength to diameter ratio.

Benefits

- ✓ Highest strength to diameter
- ✓ Higher resistance to crushing
- ✓ High surface contact area
- ✓ Reduced elongation
- ✓ Excellent abrasion resistance

Dyform & Dyform Starfish

Premium quality strand compacted trawl warp. Dyform Starfish features a plastic impregnated core preventing core corrosion and providing diameter stability.

Benefits

- ✓ High Strength
- ✓ Accurate Diameter for effective spooling
- ✓ High resistance to crushing

TECHNICAL ADVICE & SPECIFICATION

We are New Zealand's largest & most experienced wire rope and lifting products supplier and pride ourselves on the ability to provide expert knowledge & technical advice to our customers.

- ✓ Advice & technology to increase the useful life of your equipment
- ✓ BBtec - The worlds leading wire rope development & technology centre
- ✓ Assurance your assets are fit for their intended purpose.

Trawl Warps

Blue Strand 6 series

Blue strand 6 series is a range of 6 stranded galvanized fishing ropes available in a variety of constructions in steel and fibre core.

Benefits

- ✓ Fit for purpose, robust rope construction
- ✓ Fully lubricated during manufacture

High Performance Sweep Wire

Four and six strand combination rope manufactured from galvanised wires covered in a heavy layer of tough danline yarns. Offering a much larger diameter when compared weight for weight with standard wire ropes. Combination rope is ideal for sweeps and bottom bridles when bottom trawling, sliding over the seabed without penetrating into it.

Benefits

- ✓ Durable
- ✓ Suitable for soft and hard sea floor
- ✓ Galvanised

Bonded sweep & bottom bridle wire

PVC coated wire rope for sweep wires when bottom trawling.

Benefits

- ✓ Extra thick abrasion resistant cover
- ✓ Large Diameter / weight ratio

Dyneema® rope

Dyneema® 12 strand fibre ropes

High strength ropes made from Dyneema® the worlds strongest fibre.

Dyneema® is more than 10 times stronger than steel per unit of weight. This means that these ropes have a slightly higher strength than a steel wire of the same dimension - but less than one tenth of the weight. After two years of exposure 80% of strength is retained.

- ✓ The worlds strongest fibres
Dyneema®, the world's strongest fiber™, is respected as the premium brand for Ultra-High Molecular Weight Polyethylene.
- ✓ Lighter & stronger than steel
10x stronger than steel at the same weights and lengths.
- ✓ Abrasion resistant
High resistance to abrasion, moisture, UV radiation and chemicals.
- ✓ Bend fatigue resistant
The highly flexible properties of Dyneema® fibres ensure excellent resistance to bend fatigue.

- ✓ **Advanced durability**
Excellent anti-abrasion properties contribute to longer working life (over 10% compared to standard ropes) High ultra-violet light resistance
- ✓ **Super Strength**
50% better breaking strength compared to British Standards and ISO standards for polypropylene ropes
- ✓ **Variety of Applications**
A multi purpose rope ideal for general industrial & commercial fishing applications.

Fibre rope

SuperTec 8 strand rope

Product Code	Description	Length m	Unit	Weight		Break Load	
				kgs/100m	kg	kg	kN
18013428	28 mm SuperTec	220	Coil	39.4	17,800	174.6

18013472	72 mm SuperTec	220	Coil	258.0	105,500	1,034.9	
18013480	80 mm SuperTec	220	Coil	319.0	129,900	1,274.3	

DSR's innovative technology has enabled us to offer a stronger and more affordable rope. Size for size SuperTEC is stronger than PP, PE and Polyolefin ropes. In addition to its strength, SuperTec provides higher abrasion and fatigue resistant properties.

SuperTec rope is easier to handle than other ropes of its class, as it does not absorb water.

Available in 3, 8 and 12 Strand.

Available in green only. Other sizes available on indent.

- ✓ Designed for the cruiser/racer, FINELINE™ polyester double braids are constructed using 100% high tenacity multifilament polyester yarn.
- ✓ High strength with low stretch, softer construction for ease of splicing.
- ✓ Excellent UV and chemical resistance, for use on most yachting applications such as: sheets, halyards, downhauls, runners, reefing line and spinnaker guys.

Trawl Netting

Olivene Trawl Netting

Offers the best combination of abrasion resistance and knot breaking strength for any netting in its class. Olivene is a high density polyethylene compact braid. Autoclaved to ensure maximum mesh stability which enables consistent trawl performance.

Unique identification: Emerald Green colour + 2 orange tracer yarns.

Sapphire Netting

Sapphire netting is the next generation of HDPE compact braid netting. Higher knot breaking strength allows twine diameter downsizing enabling lower drag resistance whilst maintaining breaking strength. Size for size, Sapphire is the ultimate HDPE netting on the market.

Unique identification colour - Sapphire Blue with yellow tracer (or reverse - yellow with

Knotless Codends

Nitto Seimo (Japan) knotless codends are a highly specialised 3 strand (3 S/T) braid or twist construction for commercial trawling applications.

Superior strength and performance over conventional knotted netting.

Made from high tenacity polyethylene continuous monofilament fibres. 100% twine strength is maintained throughout the mesh intersect.

Reduced drag (less bulk weight) over conventional netting. High abrasion resistance (without knots) netting does not have high "spots" to catch on stern ramps, net rollers and rough bottoms.

Stable mesh size. Each piece of netting has its own unique "inspection certificate". Nitto Seimo netting maintains nearly 100% of its original mesh size throughout product life.

Reduced damage to fish. Maximises fish quality with less bruising and blood spotting to fillets due to no knot protrusion.

Trawl doors

KIWI

The Injector KIWI is based on the same principle as the multifunction Sparrow model. By re-designing and updating foils and curves, the Injector KIWI is more powerful, more efficient, and a stronger multifunction trawl door than Injector Sparrow. Furthermore, the KIWI design is a lower weight than the Sparrow, without compromising the strength and quality of the door.

Size in M2	Weight in KG
1,0	150
1,5	300
2,0	450
2,5	650
3,0	750
3,5	900
4,0	1000
4,5	1100
5,0	1300
5,5	1500
6,0	1800
6,5	2100
7,0	2300
7,5	2600
8,0	2900
8,5	3200
9,0	3400
9,5	3600

12,5	4700
13,0	5000
13,5	5200
14,0	5500
14,5	5700
15,0	5900

KIWI has the same Injector main wire pin bracket as SPARROW, with 3 horizontal and vertical adjustments.

The KIWI model trawl door is a high aspect bottom door; however, the KIWI allows the vessel to use the same door in bottom trawls and pelagic fishing, and everything in between.

Benefits

- ✓ Higher spreading power
- ✓ Lighter to tow
- ✓ Stronger construction
- ✓ Lighter in weight

Trawl doors

VORTEX

Injector Vortex is based on the same Injector principles as the legendary Shark model that revolutionised trawl door technology in 1998.

The Vortex model is specially designed for smaller bottom trawlers, where it is essential not to use heavy trawling gear. By adjusting various aspects, such as the foil curves, the foil overlapping and foil lengths, Injector were able to make a door that is significantly lighter without compromising the strength and quality that the shark door was known for.

Size in M2	Size in sq feet	Weight in kg	Length in feet	Length in inches
1,0	10,8	140	4,1	49,6
1,5	16,2	210	4,9	59,3
2,0	21,6	315	5,7	68,5
2,5	27,0	410	6,4	76,4
3,0	32,4	480	7,0	83,5
3,5	37,8	575	7,5	90,0

Trawl doors

ADMIRAL

The new pelagic trawl door model from Injector. The Admiral is based on the same principle and technology as the Injector multifunction Kiwi model. Injector has taken the popular pelagic model Monarch a step further to give the Admiral a significant higher lift with a low drag (resistance) ratio.

ADMIRAL	Standard	Heavy	Extra Heavy
Size in M2	Weight (KG)	Weight (KG)	Weight (KG)
1,0	130	170	210

14,5	3600	4100	4500
15,0	3800	4300	4700
Other sizes / weights on request			

In addition, the Injector Admiral design makes it possible to produce the doors lighter in weight, compared with same size of Injector Monarch, without compromising the strength, quality and balance stability, if a light version is required by the customer.

The first Injector Admiral set was tested on Polar Amaroq for Blue Whiting Fishing with great success.

Benefits

- ✓ High spreading power
- ✓ Lighter to tow
- ✓ Stronger construction
- ✓ Lighter in weight

TESTING & CERTIFICATION

Ensuring your assets are in top working order is vital for the smooth and safe running of your business. As New Zealand's largest third-party testing and inspection service provider for lifting equipment you can be assured we have the industry knowledge and expertise to ensure your assets are certified and safe.

Our LEEA accredited technicians are trained to inspect, test, evaluate and advise on the condition of your assets.

Purse seine

Pacific Blue - Purse Wires

Pacific Blue

Pacific Blue is a compacted strand wire rope recommended for purse seining. The rope features large outer wires for increased abrasion resistance and a smooth surface suitable for purse rings.

* Available in steel or fibre core

Benefits

- ✓ Increased abrasion resistance
- ✓ Reduced wear from roller rings
- ✓ High fatigue resistance

Tuna net chain

ACCO Tuna Chain

ACCO uses high quality steel, especially formulated and heat treated for tuna fishing. Every heat treated lot is sampled and destructively tested for material strength and link elongation – assuring compliance to designed criteria. All Tuna Net Chain is then proof tested, 100%, every link.

The ACCO Tuna Net Chain is continuously hot dip galvanised to provide the deep strong protective coating you have come to expect which has over 30% more zinc per unit volume than mechanical coating.

In the hot dip process, the galvanised zinc coating is alloyed with the base steel creating a metallurgical bond that is several orders of magnitude stronger than mechanical bonding.

- ✓ Hot dip galvanised
- ✓ Tested and certified
- ✓ Manufactured in the U.S

Purse Seine Floats

Gourock Purse Seine Floats

High performance floats for purse seine fishing. Our floats are made from Ethylene Vinyl Acetate (EVA) material and are available in a range of sizes and shapes to suit your requirements.

Gourock floats

Product Code	Model	Nett Buoyancy	Weight	Dimensions (mm)		
		kg	g	L	OD	HD
17068269	SHE-25	2.4	370	177	152	28
17068265	SHE-30	3.0	438	180	169	33
17068270	SHE-40	3.8	585	208	185	37
17068280	SHE-70	6.5	1,000	250	220	42
17068285	SHE-85	8.5	1,314	265	248	48

Gourock EVA Floats

Product Code	Model	Nett Buoyancy	Dimensions (mm)			Colour
		kg	L	Dia.	Hole.	
17068315	SHBB-1	5.00	365	153	25	Yellow / White
17068316	SHBB-2	5.70	365	178	25	Yellow / White

Benefits

- ✓ Ethylene Vinyl Acetate (EVA) floats are an ideal surface float
- ✓ Impact resistant - do not break, shrink or deform.
- ✓ Do not absorb water.
- ✓ Light weight with maximum surface buoyancy.
- ✓ Weather and U.V. resistant.

Fibre ropes

Nylon double braided rope

Our high strength nylon double braided rope has low elongation compared to other eight stranded ropes, making them perfect for purse seine applications.

Colour	Diameter (inches)	Length (mtr)

Hooks, clips and blocks

Snapper Hooks

Tainawa 220R, Morenot Tainawa & Mustad Tainawa high carbon steel Snapper Hooks range in sizes from 16R to 18 R and are sold in packs of 100.

Product Code	Model	Properties	Size	Material	Packaging
17142322	Morenot Tainawa	Ringed, Tinned	17 R	High Carbon Steel	per 100 pcs
17142016	Tainawa 220R	Ringed, Tinned	16 R	High Carbon Steel	per 100 pcs
17142018	Tainawa 220R	Ringed, Tinned	18 R	High Carbon Steel	per 100 pcs
17142316	Mustad Tainawa	Ringed, Tinned	16 R	High Carbon Steel	per 100 pcs
17142317	Mustad Tainawa	Ringed, Tinned	17 R	High Carbon Steel	per 100 pcs
17142318	Mustad Tainawa	Ringed, Tinned	18 R	High Carbon Steel	per 100 pcs

Dyrkorn Snooded Hooks

High carbon steel snooded hooks available with or without loop.

Product Code	Snood Size	Hook Size	Loop
17139405	16 Gauge (2.5 mm) x 23" Long	12/0	With Loop
17139416	24 Gauge (3.5 mm) x 23" Long	15/0	Without Loop

Snapper Longline clips

Gourock JVI and Leigh clips available in packs of 100.

Code	Model	Dia	Length	Type	Application	Quantity
17551497	Gourock JVI Clip	1.50mm	.53mm	To suit 1.3 to 1.8 mono	Monofilament	100
17551499	Gourock JVI Clip	1.50mm	.53mm	To suit 2.0 to 2.5 mono	Monofilament	100
17551498	Gourock JVI Clip	1.50mm	.53mm	To suit 3.0 mono	Monofilament	100
17551501	Gourock Leigh Clip	1.50mm	.53mm		Monofilament	100

Snapper Longline blocks

Gourock Longline blocks with grease nipple and ball bearing available in open and closed single sheave options.

Code	Size (inch)	Sheave		Block Type	
17182804	4"	Single	Open	Ball Bearing	Grease Nipple
17182805	4"	Single	Closed	Ball Bearing	Grease Nipple

Snap clips

Stainless Steel Snaps with Swivels

Stainless steel type L snap clips with SBL style swivel .

17065410	HF 300B	300	300	14.5	2	20
17065420	HF 360C	360	300	20	4.2	—

Gourock EVA Floats

Product Code	Model	Nett Buoyancy	Dimensions (mm)			Colour
		kg	L	Dia.	Hole.	
17068315	SHBB-1	5.00	365	153	25	Yellow / White
17068316	SHBB-2	5.70	365	178	25	Yellow / White

Benefits

- ✓ Ethylene Vinyl Acetate (E.V.A) floats are an ideal surface float
- ✓ Impact resistant - do not break, shrink or deform.
- ✓ Do not absorb water, light weight with maximum surface buoyancy.
- ✓ Weather and U.V. resistant.

Floats

Polyform inflatable marker buoys

Product Code	Model	Nett Buoyancy	Eye Dia.	Dimensions (mm)			Colour
	Polyform	kg	mm	L	Dia.	Circ.

17063712	A-1	13	25	370	290	911	Yellow
17063713	A-1	13	25	370	290	911	White
17063720	A-2	31	28	490	390	911	Red
17063730	A-3	55	28	590	470	1,476	Red
17063740	A-4	85	28	710	550	1,727	Red
17063750	A-5	179.6	30	920	700	2,198	Red
17063760	A-6	359.2	38	1,180	860	2,700	Red

Benefits

- ✓ Ropeholds and valves built to withstand the most severe applications.
- ✓ Redesigned ropeholds for A-1 through A-7 for improved strength and durability.
- ✓ Dual valve inflation/deflation system for sizes A-5, A-6 & A-7.
- ✓ Excellent rafting fender choice.

Polyform inflatable low drag buoys

Inflatable low drag buoys from Polyform. These floats offer high UV resistance and a ribbed design that creates reduced drag compared to standard round buoys.

Polyform low drag buoys are offered in a range of colours & designs.

Product Code	Model	Nett Buoyancy	Eye Dia.	Dimensions (mm)			Colour
	Polyform	kg	mm	L	Dia.	Circ.	
17063690	LD-1	13	25	470	215	270	Orange
17063691	LD-1	13	25	470	215	270	Red
17063692	LD-2	31	25	590	305	377	Red
17063692A	LD-2	31	25	590	305	377	Yellow
17063692B	LD-2	31	25	590	305	377	Orange
17063692C	LD-2	31	25	590	305	377	Saturn Yellow
17063693	LD-3	55	25	760	360	449	Red

- ✓ Unique upright shape ensures maximum visibility.
- ✓ Ribbed design creates only 20% of the drag of standard round buoys.

Floats & Bins

Polyform inflatable cc marker mooring buoys

Momoi I.G.F.A. spools

Momoi's HiCatch I.G.F.A. Monofilament Nylon Line is produced to exact tolerances and is designed to break just under I.G.F.A. specifications for each line class.

An extra margin of breaking strength over other I.G.F.A. lines is provided to tournament fishermen and world record seekers without the worry of exceeding I.G.F.A. requirements.

Momoi I.G.F.A. ¼ lb Spools

Momoi IGFA 1/4 lb spools sold in Fluoro Yellow & Light Blue.

- ✓ Available in diameters between 0.145mm to 0.45mm
- ✓ 1 - 10 kg breaking loads
- ✓ Made in Japan

Momoi I.G.F.A. 4&5 LB Bulk Spools

Momoi IGFA 4&5 pound spools sold in Fluoro Yellow & Light Blue.

- ✓ Available in diameters between 0.40mm to 0.91mm
- ✓ 8 - 37 kg breaking loads
- ✓ Made in Japan

Momoi I.G.F.A. 300m & 1000m Spools

Momoi IGFA 4&5 pound spools sold in Fluoro Yellow & Light Blue.

- ✓ Available in diameters between 0.285mm to 1.17mm
- ✓ 4 - 60 kg breaking loads
- ✓ Made in Japan

Leader line

Momoi Hi-Catch leader hank coils

Momoi Hi-Catch leader line is an extremely high quality monofilament line. Exhibits very low memory characteristics, is very soft & flexible while maintaining a high tensile strength to diameter ratio.

Product Code	Model	Coil Type	Length	Dia.
			m	mm
17221814	Hi-Catch 150 lb	Leader	100	1.28
17221819	Hi-Catch 200 lb	Leader	100	1.40
17221824	Hi-Catch 250 lb	Leader	100	1.60
17221829	Hi-Catch 300 lb	Leader	100	1.80
17221839	Hi-Catch 400 lb	Leader	100	2.05
17221846	Hi-Catch 480 lb	Leader	100	2.20

Momoi X-Hard leader hank coils

Momoi's X-Hard nylon monofilament line is the ultimate leader material when extremely high tensile strength and abrasion resistance are required.

Produced with a hard outer coating to resist abrasion and for those applications where a stiffer leader is required.

Product Code	Model	Coil Type	Length	Dia.
			m	mm
17238147	X-Hard 300 lb	Leader	100	1.80
17238148	X-Hard 400 lb	Leader	100	2.05
17238149	X-Hard 500 lb	Leader	100	2.20
17238335	Momoi 650 lb	Leader	50	3.08

Momoi leader hank coils

Momoi's high strength monofilament and fluoro carbon combined with low stretch Dyneema® creates the strongest, most dependable wind-on leader in the world.

Product Code	Model	Coil Type	Length	Dia.
			m	mm
17238340	X-Hard Dyneema® 220 lb	Leader	11.3	1.45
17238345	X-Hard Dyneema® 300 lb	Leader	11.3	1.80

17238355	X-Hard Dyneema® 530 lb	Leader	11.3	2.33

F.A.D

Fish Aggregating Device.

Rope

Wire Rope

Cookes offer an extensive range of steel wire ropes that can be utilised as part of an FAD system. Popular options for F.A.D Systems include:

- ✓ Stainless steel wire rope: 316 stainless wire rope preformed right hand ordinary lay, wire strand core.
- ✓ Combination wire rope: six strand combination rope (IWRC or fibre rope core), preformed steel strands covered with poly propylene multifilament.
- ✓ PVC coated wire rope: class A galvanised wire rope covered to required thickness with PVC, colour optional.

*To See our full range of wire ropes; see Cookes 2019 Wire Rope catalogue or view online at cookes.co.nz

Fibre Rope

Cookes offer an extensive range of Fibre Rope designed to meet the specific needs of your FAD system. Specialised and standard options are available in Polyester, SuperDan, Danline & Nylon

*To See our full range of Fibre ropes; see Cookes 2020 Fibre Rope catalogue or view online at cookes.co.nz

Super Dan

- ✓ High strength
- ✓ Durable
- ✓ Wide range of applications

Danline

- ✓ Strong & durable
- ✓ Fit for purpose
- ✓ Range of applications

Culture rope

- ✓ UV stabilised
- ✓ Balanced construction
- ✓ Spat Collection & Retention

- ✓ The Safe Working Load indicates the maximum mass or force which the block is able to support.
- ✓ All blocks must be inspected regularly to monitor condition.
- ✓ Each block may be affected by wear, misuse, overloading, deformation and other use conditions.
- ✓ Shock loading and abnormal conditions must be taken into account when selecting blocks.

Accessories

Clothing & equipment

Safemate foot wear

Available in sizes from 7-14, featuring steel toe caps and oil/acid and slip resistant soles.

Stormline Double front bib

Ranging in sizes S - 4XL and featuring:

- ✓ Heavy-duty polyester backed PVC outer layer, nylon backed PVC against skin for quick drying.
- ✓ Triple layer in the knee incorporating removable knee pads. Elasticated braces with industrial plastic clip buckles.
- ✓ Reinforced with tape at stress points. Velcro tape at legs for adjustment & safety.
- ✓ Elastic waist, Hi-Visibility Neon for Safety. Ideal for environments requiring abrasion resistant gear.

Stormline Crew Jackets

Ranges in sizes from S - 3XL and features;

- ✓ Velcro storm flap. Drawstring storm hood. Neoprene adjustable cuffs for water protection and comfort.
- ✓ Shorter front to reduce bulk with longer back for added water protection.
- ✓ Featured in mostly Neon for hi-visibility, the jacket also features white reflective tape for superior reflective performance in all conditions and enhanced safety and identification.

Net Solutions

New Zealand's leading, supplier, manufacturer and service provider for net solutions.

Our team of net makers have over 50 years' experience across the Fishing and Aquaculture sectors. We pride ourselves on being able to offer high-quality advice and services that add value.

Fishing & Aquaculture

We are the leading supplier of aquaculture nets to the New Zealand Salmon farming industry. Supplying; grower nets, predator and bird nets that are engineered and manufactured to the specific requirements of each customer and farm.

Cookes provide; net design services, manufacture (nets only), alteration, splicing and repair services for all types of netting and rope products from our three specialised net loft service centres/netting facilities in Nelson, Timaru and Picton.

Additional services from these facilities include:

- ✓ Disinfection
- ✓ Wash down
- ✓ Repair
- ✓ Net strength testing
- ✓ Net recycling

Cookes are proudly partnered with one of the worlds leading net manufacturers for the aquaculture industry, Garware Technical Fibres. This partnership allows Cookes to access world-leading net technology and innovation that can provide increased value, productivity and safety.

We also work closely with the New Zealand fishing industry to develop and assess new net technologies that ensure our customer have access to leading solutions that generate the best catch rates and reduce environmental impact.

We provide nets for:

- ✓ Wing Trawls
- ✓ Scampi Trawls
- ✓ Bottom Trawls
- ✓ Mid Water Trawls
- ✓ Cod-ends

General purpose nets

- ✓ Sports nets
- ✓ Playground nets
- ✓ Cargo nets
- ✓ Barrier nets
- ✓ Custom on request.

Rope splicing

We specialise in splicing of all types of ropes and the manufacture of Dyneema® Heli lines, both Dyneema® Fibre and Dyneema® rope slings are fully certified and ready for service. We also offer a full measure, installation and regular inspection and certification service to ensure customer-specific needs are met.

Cookes has three netlofts across the South Island:

- ✓ Picton
- ✓ Nelson
- ✓ Timaru
